

Thank you for choosing to register with us.

When registering at the practice, ideally we ask for two forms of identification. Please provide a Photo ID (e.g a passport or photo driving licence) or a birth certificate and a current utility bill. We will then be able to register you at the practice.

The information we gather on this form is important as it can take weeks for us to receive your medical records from your previous GP.

Please complete the attached questionnaire in full. The answers to your questions will be confidential and will be entered onto your medical records.

Please ask our Reception team about booking your New Patient Health Check once you have registered. If you have regular repeat prescriptions you will also need to book an appointment with a GP or a clinical pharmacist for a medication review. This helps us to get to know you and your health needs.

Additionally, we want to ensure that you can access and understand information. This applies to patients and their carers who have information and/or communication needs relating to disability, impairment or sensory loss. A small questionnaire is attached below in case you need this registration form in a different format.

If you have any queries about the services we offer you can refer to our website www.parkedgepractice.co.uk, our practice information leaflet or ask a member of our Reception team who will be more than happy to help.

Accessible Information & Communication Questionnaire

Please use this form to let us know how we can meet your communication needs.

You can ignore this questionnaire if you don't need this form in any other format. Afterwards, you need to send this form completed to our reception or email it to parkedgepractice@nhs.net. We will reply back to you sending this form to the most suitable format based on your answers.

Do you need a format other than standard print?		
Require information in easy read?	<input type="checkbox"/> YES	<input type="checkbox"/> NO

Summary Care record consent	<input type="checkbox"/> Yes / <input type="checkbox"/> No				

Consent Forms (SCR)

If you are registered with a GP practice in England you will have a Summary Care Record (SCR), unless you have previously chosen not to have one. It includes important information about your health such as medicines you are taking, allergies you suffer from and any bad reactions to medicines. You may need to be treated by healthcare professionals that do not know your medical history. Essential details about your healthcare can be difficult to remember, particularly when you are unwell or have complex care needs. Having an SCR means that when you need healthcare you can be helped to recall vital information.

You can choose to have additional information included in your SCR, which can enhance the care you receive. This includes

- Illnesses/health problems
- Operations and vaccinations
- Preferences on where you would like to receive care.
- Any support needed.
- Who should be contacted for more information about you.

You still have the right to opt out of having a SCR which means that:

- NHS healthcare staff caring for you may not be aware of your current medications, allergies you suffer from and any bad reactions to medicines you have had, in order to treat you safely in an emergency
- Your records will stay as they are now with information being shared by letter, email, fax or phone.

If you have any questions, or if you want to discuss your choices, please:

- phone the Summary Care Record Information Line on 0300 123 3020;
- contact your local Patient Advice Liaison Service (PALS); or
- contact your GP practice

Please complete with your details in BLOCK CAPITALS and tick the for any consents or choices applicable to you.

Declaration			
I would like my Summary Care Record to include additional information as listed above		<input type="checkbox"/> Yes / <input type="checkbox"/> No	
I would like to opt out of having an SCR		<input type="checkbox"/> Yes / <input type="checkbox"/> No	
If you are filling out this form on behalf of another person, please ensure that you fill out their details. You sign the form and provide your details below:			
Full name of Patient:		Date of birth:	
Patient's Full Address:		NHS Number (if known)	
Patient's Signature:		Date:	
Representative's name (if applicable)		Representative's Signature (if applicable):	

Consent Forms (Sharing Health Records)

Electronic records are kept in all the places where you receive healthcare. Often, NHS care services can usually only share information from those records by letter email, fax or phone. At times, this can slow down your treatment and mean information is hard to access.

This service uses a secure computer system that allows the sharing of full electronic records across different NHS care services. This form is **not** about your Summary Care Record (SCR), it is asking your sharing preferences regarding your full detailed electronic record.

We are telling you about this, as you have a choice to make. You can choose to share or not to share your full electronic record with other NHS care services where you are treated and whether we can view records held by those other services.

If you choose to make your record shareable, ***your clinical details will only viewable by clinical teams who are treating you. Each clinical team which cares for you now or in the future will ask your permission to view your shared record.*** You can also ask for part of your record to be made private – not shareable. All record accesses are recorded and auditable.

If you choose not to make your records shareable, we will respect your wishes and will do our best to make your care safe and efficient. However, ***denying the clinical teams caring for you the ability to access important clinical details could compromise your care.***

If you require further information please ask at reception. You can also visit the NHS Care records website at <http://www.nhscarerecords.nhs.uk/carerecords> or download the NHS Care Record Guarantee from <http://www.nigb.nhs.uk/pubs/nhscrg.pdf>.

Please tick the for any consents or choices applicable to you.

Declaration

How is my decision recorded?

Sharing Out – This controls whether your full electronic patient record can be shared with other NHS care services where you are treated. Please record your preference:				<input type="checkbox"/> Yes (Shareable) / <input type="checkbox"/> No (not shareable)					
Sharing In – This controls whether you agree for this practice to view information you've agreed to share at other NHS care services. Please record your preference:				<input type="checkbox"/> Yes (viewable) / <input type="checkbox"/> No (not viewable)					
If you are filling out this form on behalf of another person, please ensure that you fill out their details. You sign the form and provide your details below:									
Full name of Patient:						Date of birth:			
Patient's Signature:						Date:			
Representative's name (if applicable)						Representative's Signature (if applicable):			

**PARK EDGE PRACTICE
ASKET DRIVE
LEEDS
LS14 1HX**
Dr Sarah Harding

Dear Patient,

New service for patients

You may be aware that all Practices are now required to provide all their patients with a named GP who will have overall responsibility for the care and support that our Practice provides to them.

Your named GP will be appointed and acknowledged to you as soon as we process your information.

Dr Harding will have overall responsibility for the care and support that our Practice provides to you. This does not prevent you from seeing any other GP in the Practice, as you currently do.

This letter is for information only. You do not need to take any further action.

Yours sincerely,

Park Edge Practice
